

CS 145 Day 3 activity – stack diagrams

```
def triple(x):  
    x = x * 3  
    return x  
  
def mystery(x):  
    y = triple(x) + 1  
    return y  
  
x = 4  
result = mystery(x)  
# print(result)
```

Trace the execution of the line

```
result = mystery(x)
```
